Files

sample_submission.csv - A sample submission file in the correct format.

- **image_id** The image ID
- **hotel_id** The hotel ID. The target class.

train_images - The training set contains many images from hotels from across the globe. All of the images for each hotel are in a dedicated subfolder for that chain. These images do not have any occlusions by default.

train_masks - Occlusions like the ones that will be present in the images in the test set.

test_images - The test set images. This competition has a hidden test set: only one image is provided here as a sample while the remaining 5,000 images will be available to your notebook once it is submitted.
